Israel: A Journey Through Time

Israel: Nation In Crisis - is the focus of this chapter. Since her rebirth in 1948, Israel has struggled to survive as a Jewish homeland in a hostile neighbourhood, a democracy surrounded by nations governed by dictators. Wars and rumors of wars have been the daily diet Israelis have had to swallow for more than 60 years. And between the wars the incessant threat of terror attacks, when suicide bombers stalk the streets and when every bus or gathering place is a target and maximum collateral damage the goal.

Yet, somehow Israel has continued to survive and thrive. The dangers today is that weapons are becoming more sophisticated and rockets fired from Gaza are reaching deeper into Israel than ever before. If Israel's return to her biblical homeland is a sign of the lateness of the prophetic hour, could these ever increasing threats to her existence be a signal that the final countdown to Armageddon has begun?
